DESCRIPTION
Torn apart from his family by an attack by a rival pack, a wolf cub named Swift leaves all that is familiar and travels over a 1,000 miles through the Pacific Northwest, surviving fire, hunger, hunters and highways as he wanders.

ADDITIONAL COMMENTS
This wonderful novel is based on the actual journey of a wolf named OR-7 (known also as Journey). At the back of the book there are many interesting photos of wolves, maps of "Swift's" (OR-7) trek, information about the setting's habitat, and great facts about wolves, their behaviour, and social structure.
