

Restart

Korman, G.

Following a fall from a roof, Chase awakes from a coma with amnesia and when he returns to school he encounters students with many different reactions to him. Slowly he uncovers that he was the schools biggest bully and, embarrassed and ashamed of his past behaviour, he tries to create a new identity for himself as he is drawn to new friends -- the kids he used to bully-- and is repelled by his former, bullying friends. This insightful Canadian novel is suitable for a read-aloud, independent novel study, or a literature circle, and can launch discussion of the causes and effects of bullying, personal identity, and perspective.

CURRICULUM FIT

Does the resource support BC curriculum?

Moderately

Restart is a young adult novel that extensively explores the concept of perspective. As the main character is forced to examine his past behaviour through a new lens, the reader is provided the opportunity to imagine what has motivated his previous behaviour. As such it supports the ELA Big Idea that "Texts are socially, culturally and historically created. " Restart's compelling plot also supports the ELA Big Idea that "language and story can be a source of joy and creativity" as the reader is engaged in determining the true identity of the main character.

SUGGESTED CLASSROOM USAGE

Restart could be used as a read-aloud, an independent novel study, or as a literature circle novel. It is written from various points of view and engages the reader with suspense and interesting, relatable characters. It would be a good read to initiate a class to discussion on the causes and effects of bullying.

SOCIAL CONSIDERATIONS

Belief System

The entire premise of the compound is based on spiritual enlightenment. There are more extremists who wish to create a utopian-like isolated and contained society. Spiritual evolution is seen as a "cleansing" of the mind and body. Mandatory reflection, meditation, and hazing rituals are a necessary part of each member's growth.

Violence

There are many scenes with bullying and violence. The main character physically assaults many of the other characters in the novel.

Humour

Often the bullies in the story are acting in a joking manner when their intentions are mean and humiliating to others.

Safety

One of the characters has had to move to another school because he has been so badly bullied. Three of the characters terrorize the other students and the community.

Do the social considerations support, rather than detract from, student learning?

Moderately

The novel is about the effects of bullying on a school population and a community. It provides the reader the opportunity to think about the causes and effects of bullying. It also offers some insight into what causes the bully's behaviour and provides different perspectives to consider. The violence in the book is not gratuitous or particularly graphic.
